

Proposed Allocation of Sports Premium Grant 2017 – 18

The government is providing funding to schools to improve provision of physical education (PE) and sport in primary schools.

The premium is spent on making additional and sustainable improvements to the provision of PE and sport for the benefit of all pupils to encourage the development of healthy, active lifestyles. This means that schools should use the premium to:

- develop or add to the PE and sport activities that the school already offers
- make improvements now that will benefit pupils joining the school in future years
- give pupils the opportunity to develop a healthy, active lifestyle

It is expected that schools will see an improvement against the following 5 key indicators:

1. the engagement of all pupils in regular physical activity – kick-starting healthy active lifestyles
2. the profile of PE and sport being raised across the school as a tool for whole school improvement
3. increased confidence, knowledge and skills of all staff in teaching PE and sport
4. broader experience of a range of sports and activities offered to all pupils
5. increased participation in competitive sport

The table below outlines details of the planned use of the Sports Premium Grant against these key indicators. The impact of each school focus will be reviewed in July 2017.
